Hello and thank you for taking interest in my guide.
This is the 20-60 section of the leveling guide
This section covers 20-60 no matter what race or class you are playing

I have been updating and tweaking my guide for the past year now. I am currently working on getting ready for WotLK, the new WoW Expansion. Any class can use this guide.

PLEASE READ THE TIPS BELOW

To the left you’ll find a clickable index that you can use to jump to any section of the guide.

Hopefully you did not illegally obtain this product. I am able to make updates fast so you always have the best guide. The reason some people steal non-tangible products is because they think it should all be free. Because I ask for a fee to use my product I can update it whenever I need to and usually before the changes are released to the public.

If you got this guide anywhere other than http://www.briankopp.com then you have received this guide illegally! Report it and you may be eligible for a reward. If you like what you’ve seen, donations are welcome through paypal snps@earthlink.net

Some Tips For Everyone

1) First I would really like to thank Joana/Mancow for making the horde guide that was similar to this one. He inspired me to write this. He has a great guide and I wanted to make one like it for alliance.

2) Some abbreviations you might see throughout this guide are as follows: **GY= Graveyard**  
**Darn= Darnassus**  
**SW= Stormwind**  
**IF= Ironforge**  
**FP= Flight Point.**  
Directions such as NW NE SW SE are usually obvious in their wording but of course mean northwest, northeast, southwest, and southeast.

3) I suggest you use some type of mods if you don't already. They greatly help with everyday things. Here is what I suggest you get:

4) **CT Raid** Lot of nifty options in and out of raids also shows coordinates on the map

5) **Scrolling Combat Text** (shows any combat stuff you want around your body like final fantasy) better than the built in one. It even shows you when certain abilities are ready. I.E. Rogues Riposte, Hunter's Mongoose Bite, etc

6) **Other Ace Mods** Get Fubar off of this site. This puts a nice bar atop your screen that shows anything you set it to. There is a list of many addons for fubar here. Very helpful with cords. You need the one that is called fubar then the rest can be added on to it. Lots of play here depending on what you want. I highly suggest you get questfu and xpfu then toy around with others depending on your play style

7) Whenever you see something on the guide surrounded by a box like this, it represents being in a town. Not all little encampments are considered a town even though it has a flight point. I usually tried to make sure it had an Inn and a FP

8) As of patch 2.3 nearly every item that you will pick up will sparkle like a corpse does. All npc's with a quest or a quest turning now show on your mini map. All objects that are not npc's also have an exclamations or question mark over them so they are easy to spot.

9) Since you're probably going to do this on a new server, a smart idea is to pick up skinning and mining or herbalism because you won't have a main to cheese money off of. But at least skinning. You can start making pretty good money for just killing stuff. Mining can be kind of hard to use with hunters because you can't look for mines and track at the same time and the same goes for herbalism. All other classes won't have that problem. I think herbalism is much easier to level and you can find herbs a lot more than mining.

10) If you don't want to do any tradeskills until you hit max level then pick up mining and herbalism. This is for questing reasons where you may need a special item that can be tracked with one or the other

11) Whenever you hit 15/25/35/45 etc, get the newest water and food you can have. It will greatly help downtime.

12) Whenever you hit 10/25/40 etc upgrade your ammo for the best damage you can do. At 52 something you can get thorium ammo, but it's crafted so could be hard to get especially on a new server when you're ahead of everyone

13) Before I go out hunting or questing, especially in spots I can't buy the highest-level ammo or food/water, I always make sure I have about 60 food/water or more depending on how long I may be out or just in case you forget next time you can get more. This way you can hunt for hours before you have to go out of your way to restock
14) The more you level up to 70 the better, and faster you become with our without using this guide. Just like anything else in life.

15) It's extremely important that you know what you're going to do next. If you don't you could forget something and run half way across the map and then have to run back. It's also important if you have 2 quests to do in the same spot or near the same spot, to do them at that time because it can be easy to forget. This is one reason a quest tracker comes in handy.

16) Always have an alt for your character that you're leveling to sell stuff in the Auction House. This saves tons of time, especially if you're no where near an AH. Constantly send your skins, bars, and anything else you want to sell to the AH alt. You can also send stuff that you want to keep but can't use till later. Send it to the alt, then just hit return and let it sit in your mailbox till you need to use it. This won't work for some people because they can't stand seeing that mail icon.

17) If you ever find yourself running from any monsters, strafe left and right very fast. The monster follows the same path you do so when you turn or go left, it does too. This really slows them down and will almost always allow you to get away. This is also how you train mobs because they can't keep up with you unless they're really fast. To do this easily just tap Q and E (the default strafe keys) very fast while you are on auto run. This is a huge lifesaver.

18) I personally loot every mob from about 20-25 on up. The reason being is you'll never know if a blue or purple item drops. I found quite a few blue items that went for 50g and up. I had almost 300g after I bought my mount. That's almost half way to your epic mount by the time you got your first one. Between drops and skins etc you can easily have 500g by the time you hit 60. Most drops are luck and just vary. Mobs loot is determined when they spawn not when they're killed.

19) I use hearthstones and dying so I resurrect at the GY near town through out the game. This saves a lot of time and can help you get a better total time. If your hearth isn't up, logging out will still count it down and not waste your /played. Do note that the guide is not based on logging out in this manner while everything was charted.

20) I don't do instances while I level up except Uldaman. The reason being is it really slows leveling down to do every single one, even if you get a killer group. You can do them if it's your first time playing or if you want a specific reward. Instances do give good gear but gear really makes no difference until you hit 60 and start really tweaking. If you know you got a good group then do them. But if you don't blow through it in 1 time it can greatly hurt your final /played so make sure no one is a noob. Plus on new servers you'll be far ahead and can't do most of them if you speed run.

21) The most annoying mobs are ones that can heal. If you see a mob starting to heal, then use a stun type move to stop it if your class has one.

22) If you play on a PVP server it will slow you down some. I always have played on PVP servers and it is unstoppable that you are going to get ganked at any level by anyone from your level on up to 60. Once you are 48 you're free honor to a 60. PVE realms will help you get the fastest /played and avoid being ganked and corpse camped.

23) People ask why I chose a Night Elf rather than another race, I don't like Gnomes, humans are ok, Dwarves are close to gnomes but look better. But truly I love NE because they look...
the best IMO. Plus NE rogues have an extra level of stealth because of meld, and hunters can meld and their pet can prowl so you can both be hidden from mobs or other players. I think being able to hide is the best racial

24) Just because your inventory is full doesn’t mean you have to go back to town. Destroy low, useless items to make room. This is where lootlink helps out so you can see what an item is worth to a vendor and destroy useless items.

25) NOTE: Don't abandon quests anymore if it's a grab x item quest because they will vanish upon abandoning the quest.

26) When it comes to mid to high levels, stick with one weapon type, or 2 if you dual wield different types. This only really applies melee. The reason being is it’s tough to level up melee skills vs high-level mobs. Ranged for a hunter is not the same since it levels much faster. You can still try and use any weapon but it could slow down your time. If you do decide to use a new weapon type, using special skills will make it level up faster.

27) In your video options, lower your ui scale to fit your needs. This makes it look better and can help you out.

28) Some stuff may be harder for non-hunters to solo. If you don’t start at level 1 or around 15 you may wonder why you have to grind a lot, you just missed stuff I did or you could have done quests that I didn’t do yet and vice versa.

29) Make sure you hotkey your spells. This is extremely helpful. Before I did this, my rogue would die more because I couldn’t click vanish or evade in time.

More tips will be added if I ever get new ones but these are the ones you need to know if you don’t already.
20-21 Darkshore (Draenei Meet Up)

1) First thing, fly to Darnassus or Exodar and get your new Skills
2) In the center of Auberdine, under the gazebo, at Gershala accept "Researching the Corruption"
3) Go south to 43,76 and turn in “Onu” accept "The Master's Glaive"

11) Go north to 35,74 and do “WANTED: Murkdeep!” you have to clear the camp and wait about a minute. Then you will have 3 level 13 murlocs come out of the ocean. Once they die you have 2 level 15 murlocs. You can take a break if you need to between fights. Then Murkdeep comes out with a 17. Very easy
12) Go back east to 43,76 and turn in “Return to Onu” accept “Mathystra Relics”
13) Accept “The Sleeper Has Awakened” (escort) the sleeping bear behind Onu. Hotbar his horn because he falls asleep every minute or so. This quest will bring you into Ashenvale. Horn is in the box beside him. If you don’t go on the road and just run through the grass you will not get ambushed at all
**21-23 Ashenvale**

1) Continue following the road south to 26,36 Maestra’s Post and you will the complete message for “The Sleeper Has Awakened” then go turn it in straight ahead in the house to Moonriver.

2) Go to Delgren and turn in “The Tower of Althalaxx pt.3” accept “The Tower of Althalaxx pt.4”

3) From Broadleaf accept “Bathran's Hair”

4) Kill mobs to the north around 31,31 in The Ruins of Ordil'Aran for “The Tower of Althalaxx pt.4” If you don’t find it after clearing the camp once then go to the next step and try this again on the way back

5) Go further north and grab plant bundles for “Bathran's Hair” at 31,21 in Bathran’s Haunt. They're lying around on the ground. Herbalists can pick these up on radar

6) Go south back to Maestra’s Post to Delgren at 26,38 and turn in “The Tower of Althalaxx pt.4” accept “The Tower of Althalaxx pt.5”

7) Turn in “Bathran's Hair” to Broadleaf accept “Orendil's Cure”

9) Follow the road east into Astranaar at 33,48 and get FP

10) From Shindrell Swiftfire accept “The Zoram Strand” right as you enter town

11) On the house to the right and from Palanaar SKIP "A Helping Hand" we will grab it later

12) SKIP the 2 quests sending you to Stonetalon “Journey to Stonetalon Peak” and “On Guard in Stonetalon pt.1”

18) Kill the naga around here for their heads, 100% drop rate, for “The Zoram Strand”

19) Grab the statue on the ground at 14,20 for “The Ancient Statuette”

21) You should be 22 once you get out from underground

22) Go SE back to Talen at 14,31 and turn in “The Ancient Statuette” accept “Ruuzel”

23) Go NW to the small island at 9,15 and Kill Ruuzel for “Ruuzel” but note that you don't actually have to kill Ruuzel. Kill Lady Vespia. A 22 rare and doesn’t have guards like Ruuzel. She seems to be a longer spawn because she is rare and isn’t on a normal spawn timer. She wanders the coast line beside the island Ruuzel is on.
24) Go back SE to Talen at 14,31 and turn in "Ruuzel"
25) Go further SE to the lake at 20,42 and you’ll see Teronis’ Corpse in the center, turn in "Raene's Cleansing pt.1" accept “Raene's Cleansing pt.2” Then kill murlocs for the gem. The drop rate sucks so you’ll probably end up grinding a bit on these. It may seem steep if you didn’t have to grind these a lot for the glowing gem but you will be about 75% to 23 when you get done here if not farther.

26) Hearth back to Astranaar
27) Go to the bottom of the Inn to Raene and turn in “Raene’s Cleansing pt.2” accept “Raene’s Cleansing pt.3” and “An Aggressive Defense”
28) Near the FP at Swiftfire turn in “The Zoram Strand” SKIP “Pridewings of Stonetalon”
29) Hunters get your cat back out
30) Now depending on how hard it was to get that glowing gem you should be anywhere from 85-95%

31) Grind, if you’re a little behind, otherwise run NE to Iris Lake at 46,46 and grab an Elune's Tear on the ground for “Elune's Tear” It’s best to leave town directly NE as there is a path you can’t really see just north of the graveyard. You can probably level or get really close to leveling by killing your way up here

32) Go south back towards the road and east to 49,56 then go north to Shael'dryn at the moonwell at 53,46 and turn in “Raene's Cleansing pt.3” accept “Raene's Cleansing pt.4”
33) You should definitely be 23 now and about 5% into it
34) If you need to clear your bags go south to Silverwing Refuge at 50,67 otherwise skip to step 33
35) SKIP “Elemental Bracers” for now, we’ll do it when we come back later on
36) Go back north, south if you skipped step 31, to 55,61 and kill the mobs all around here for “An Aggressive Defense”

37) Run back to Astranaar
38) At the east house near the exit turn in “Elune's Tear” accept “The Ruins of Stardust”
39) In the Inn at Raene turn in “An Aggressive Defense”

40) Exit Astranaar out the east exit follow the south path till you are at 33,66 in the Ruins of Stardust and grab stardust covered bushes for “The Ruins of Stardust” also shamans need to fill the Bota bag in the center of the gazebo at the bird feeder thing for “Call of Water”

5) In the center of town at Gershala under the gazebo turn in “Researching the Corruption”
6) Fly to Darnassus and go south to the Temple of the Moon to Greywhisker at 31,84 and turn in “The Absent Minded Prospector pt.3” accept “The Absent Minded Prospector pt.4”
7) Go inside of the temple and go up top to Valustraa and accept “Travel to Astranaar”
8) Get skills if you need them. If you need to go to Exodar then take the boat in Auberdine
9) You should be about 90-95% to 24
10) You can skip the 2 quests done here if you want because it is a long run but I don’t advise doing so as you’ll miss about 6k experience
11) Fly back to Auberdine. Shamans go back to Bloodmyst and turn in “Call of Water” at 33,19 to Aqueous accept “Call of Water” then go SW to around 25,40 and use the water on the barrels and then kill Tel'athion the Impure when he comes out. Turn it back in to Aqueous and accept “Call of Water” then turn it in at the Exodar to Nobundo at 31,28 and get your water totem. Once done boat back to Auberdine since you’re near the boat

13) Go NW to the shore to 56,13 and accept “Gyromast's Retrieval” from Gyromast

15) Go back to Gyromast and turn in “Gyromast's Retrieval” accept “Gyromast’s Revenge”
16) Go SW along the shore to 5518 and you’ll see Threshwackonator 4100. Talk to it and turn the key. Now he’ll follow. Just walk back to Gyromast and when you get there the robot will attack you. Kill him and turn it in. Once you turn it in you can discard the key. You’ll get some water breathing elixirs that I highly suggest saving, unless you’re an alchemist who can make them, for quests where you will need to be underwater for a while
17) Run all the way south to to Onu at 43,76 and turn in “Mathystra Relics”
18) Hearth to Auberdine
19) You should be roughly 20% through 24
20) Fly to Darnassus or Exodar and get new skills unless you were ahead and already 24 last time
21) Fly to Astranaar
**24-24 Ashenvale**

1) In the first house on the right at Palanaar turn in "Travel to Astranaar"

2) Go SW into Fire Scar Shrine, killing what is in your way there, and kill Ilkruk Mathrull at 25,61 for “The Tower of Althalaxx pt.5” He’s up a path to the right as you head into the shrine. Take him out as fast as you can or stun him as he starts to summon them. He summons 2 voidwalkers if you take too long but luckily they’re only level 17

3) Go back north of Astranaar and fight your way up between 35,33 and 36,36 and kill Dal Bloodclaw for “Culling the Threat” If he’s in a camp just wait until he’s in the open

4) If you’re not about 40% through leveling then make sure you kill a few more guys as you head back south to the road

5) Go west on the road to Maestra’s Post to Delgren at 26,38 and turn in “The Tower of Althalaxx pt.5” accept “The Tower of Althalaxx pt.6”

6) SKIP the escort “Supplies to Auberdine” unless you get someone to help as it gets tough when you get ambushed

7) Run back to Astranaar

8) Go into the Inn to Raene and turn in “Culling the Threat”

9) Go SE to the Silverwing Refuge at 49,67 and at Starstrike accept "Elemental Bracers"

10) Go in the lake behind the building and kill the elementals until you get 5 inact bracers, it doesn’t show as a quest item when you pick it up, then use the scroll on them and then turn it back in. SKIP “Mage Summoner” This is where one of those water breathing elixirs you got earlier may come in handy

11) You should be about 70% to 25

12) Hearth to Auberdine

13) Go to the boat docks and get on the boat on the west side to Menethil Harbor.
24-27 Wetlands

1) Stop at the end of the docks at Karl Boran and accept “Claws From the Deep”
2) Go grab the FP just off the dock to the right

6) In front of the Inn from Fitzsimmons accept “The Third Fleet” and “The Greenwarden”
7) Make Menethil Harbor your home and buy a flagon of mead from the Innkeeper
8) Go upstairs in the inn to Flagongut and turn in “The Absent Minded Prospector pt.4” accept “The Absent Minded Prospector pt.5”
9) Give the flagon of mead to Fitzsimmons outside the inn for “The Third Fleet” then accept “The Cursed Crew”
10) On the bridge outside of town at Rockweaver accept “In Search of the Excavation Team pt.1”

11) Kill Young Crocolisks just east of the bridge around 14,52 in the lake, north on the land of the lake for “Young Crocolisk Skins” If you’re having trouble finding a lot just kill them in a bit along the road when you head east
12) Go north and kill Bluegill Murlocs and Gobbler at 18,40 for “Claws From the Deep”
13) Go east and enter the Excavation Site at 34,40
14) Run up the path on the left to the cave at 38,52
15) Outside the cave at Ormer accept “Ormer's Revenge pt.1”
16) Go inside the cave to Rockweaver and turn in “In Search of the Excavation Team pt.1” accept “In Search of the Excavation Team pt.2”
17) Pick up the fossil near the 2 npc’s on the ground for “The Absent Minded Prospector pt.5”
18) Go west and kill Mottled Raptors and Screechers for the stone of relu east of the crocs around 25,46 for “The Absent Minded Prospector pt.5” and for “Ormer's Revenge pt.1” If you don’t find the Stone of Relu for the prospector quest in about 5 minutes after finishing getting 10 of each raptor then just go to the next step and you will get it from the raptors over the next quests.
19) You should hit 25 while killing raptors
20) Run back up to the cave at 38,52 to Ormer and turn in “Ormer's Revenge pt.1” accept “Ormer's Revenge pt.2”
21) In the cave from Whelgar accept “Uncovering the Past”
22) Now do both “Ormer's Revenge pt.2” by killing Scythclaw and Razormaw Raptors below, and “Uncovering the Past” relics for this are all around the raptors. There are 4 different ones that randomly spawn but each is in it’s own shape which are: (Modr=Thin Red Vase) (Golm=Fat Yellow Vase) (Neru=Dirt Pile) (Ados=Tomb) If you’re having trouble finding
the dirt, look behind the tree to the east of the entrance. Sometimes it's hit ten there as shown here http://thottbot.com/ss13541

23) Go back up to Ormer at 38,52 and turn in “Ormer’s Revenge pt.2” accept “Ormer’s Revenge pt.3”
24) In the cave at Whelgar turn in “Uncovering the Past”
25) Do “Ormer’s Revenge pt.3” atop the hill at 32,51 Sarltooth is a 29 But he’s as easy as the others. Go turn it back in to Ormer near the cave when done
26) If you still have not found the Stone of Relu then go back west to the first sets of raptors and kill them until you get it
27) Go back to the road then east to 43,40 and then go south into the Angerfang Encampment and kill the dragonmaw for “War Banners” They’re annoying because they like to net you and they run.
28) Run NE to Einar Stonegrip at 49,39 and accept “Daily Delivery”
29) Run straight East from here to the Greenwarden at 56,40 and turn in “The Greenwarden” accept “Tramping Paws”
30) Go south to the camp at 56,74 and kill mosshide gnolls and mongrels for “Tramping Paws” They’re a fast respawn which is good but just don’t get cornered. If you have trouble finding mongrels then head NE and there are more camps. Turn it back in to the Greenwarden north at 56,40 and accept “Fire Taboo” You should be 26 by now, if not you will be soon
31) Go west now and start killing the mosshides for “Fire Taboo” Any mosshides will drop the flints except the ones you just killed, The flints are easily dropped by the ones around 44,33 and the surrounding camps.
32) If you didn’t find Sida’s Bag for “Digging Through the Ooze” from killing any slimes you’ve seen so far, go north to Ironbeard’s Tomb at 44,25 and kill the oozes until you get it.
33) Run back east to the Greenwarden and turn in “Fire Taboo” at 56,40 and accept “Blisters on the Land” Now this is one of those quests you just do as you go. Fen Creepers are stealthed elementals that lurk in the water. If you see one, kill it.

39) Go on the dock to Karl Boran and turn in “Claws From the Deep” accept “Reclaiming Goods”
40) On the bridge leaving town at Rockweaver hand in “In Search of the Excavation Team pt.2”
41) You should be 26 and about 50-55% to 27 assuming you had to grind the normal amount that the majority of people do to get the few items earlier that were tough to get to drop

42) Since you hit 25 while out questing make sure you get new food and water

43) Go north to the murloc camp at 13,41 and touch the damaged crate to turn in “Reclaiming Goods” accept “The Search Continues”

26) Kill dark iron lookouts for the spyglass around the towers and steamsmiths for the tuyere to the NW of the cauldron around the edge of the cauldron for "STOLEN: Smithing Tuyere and Lookout's Spyglass". There are only about 6 of them so come back if they don't drop. They seem to drop outhouse key a lot
27) Kill greater lava spiders mainly to the SW and NW of the west of the cauldron for "Fiery Menace!"
28) If the Grimesilt Outhouse Key dropped then use it to start “The Key to Freedom” and turn it in at at the wooden outhouse to the SE at 65,62 and free lochheed. Do this before the next step because this is quite a lot of xp for doing nothing but going a bit out of the way

51) When you get them all lit either look for a safe spot to jump down and go in the caves at 41,54 again and through the jail bar door at 37,44 or go to where the crane is going below ground SW of the tents around 37,44 and fall through. Run to the room with the golem at 41,25 and touch the Altar of Suntara beside the dying archaeologist to turn in

12) Go east to Talonbranch Glade at 62,24
13) Fly to Emerald Sanctuary

You most likely won't get anything past the first quest as the rest are mainly in the instances.
8) Save any bone fragments you collect since you can turn 30 in later for some easy xp
9) Go just NE to around 51,78 and kill skeletal flayers and slavering ghouls for “Clear The Way”

49) Turn around to Commander Ashlam Valorfist and complete the quest “Mission Accomplished!” no link for it cuz it’s not a quest again lol. Now see that running back and forth seemed out of the way but there was a huge xp boost at the end, and nice xp throughout.

50) At Alchemist Arbington turn in “Skeletal Fragments” SKIP the next part unless you want to start on your scholomance key.

51) You should be about 25-30% through 58

52) Now that you’re 58 you could go to outlands but I wouldn’t. Even when you hit 60 I’d try to get to 60 and a half since the end of the first zone of outlands is a bit of a grind. It’s up to you. If you do go to outlands then make sure that you don’t quest and only grind things or when you are finished with the first zone you’re going to be about 60-61 and will be behind.

5) Now go south down near the road to 28,79 and loot the last insignia off the Mangled Human Remains.
6) Focus on the dogs and bats while you head SE to Darrowshire at 36,90 and at Pamela Redpath turn in “Sister Pamela” accept “Pamela’s Doll”

5) Go to the Town Hall near Araj in the middle of town. You can sneak in from the SW side. You may need to turn your graphics way up if you can’t see it
6) Go back to the Inn at 39,68 and to the top floor to Chromie and turn in “A Matter of Time” accept “Counting Out Time” also turn in “The Annals of Darrowshire” accept “Brother Carlin”

7) Go outside and look around the busted houses for little metal lunchboxes for “Counting Out Time” There is almost one in a corner of each house

8) Go back to the Inn at 39,68 and at Chromie turn in “Counting Out Time” you can now repeat this quest for a dampener. This is used vs Araj
